

UNREACHED PEOPLE GROUP – how much do you know?

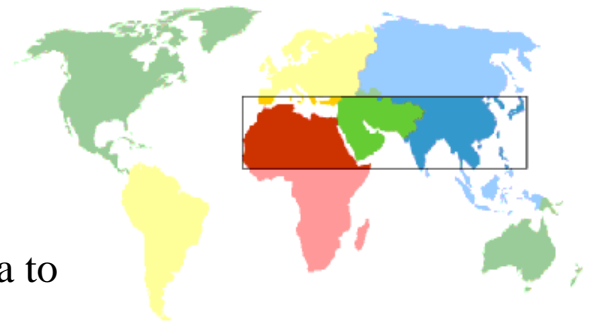

Definition of Unreached people group -

- There are no Born-again Christians in the language group
- Less than 2% of the population is Evangelical Christians.
- The group where there are no followers of Jesus who are making disciples within their own language group.
- No mother-tongue Bible

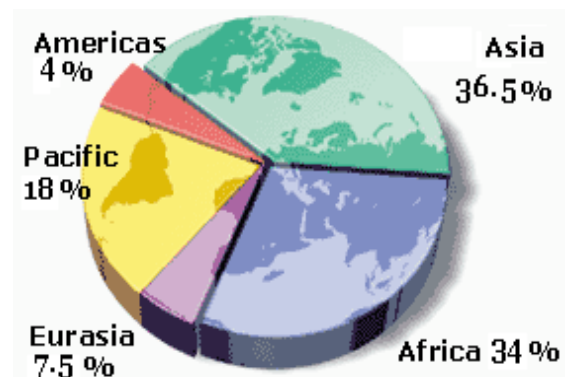

Unreached people groups are located at the 10/40 Window –

- A majority of the world's poorest.
- The window extends from West Africa to East Asia
- The countries where the gospel is often resisted and restricted for political, religious and cultural reasons.
- Many different languages and dialogues spoken which makes it very difficult to evangelize and to deliver to them their mother-tongue Bible

God has given us: Vision 2025 –

- At present, more than 2600 language groups still wait for Scripture in their languages
- By year 2025, we expect to have mother-tongue Bible translated for each of the remaining 2600 language groups

- Once we accelerate the pace of Bible translation, the vision of 2025 will be finished and all language groups will have Scripture in their languages.
- Please pray to God to raise up more mother-tongue Bible translators

Deaf Missions – The Bible in ASL (American Sign Languages) translation

- This is the hardest group of people to evangelize as they cannot hear sound hence the spoken language is no good to them
- Sign language needs to be established for these people group
- Huge need for Bible translation in ASL
- Pray that God will raise up more Bible translators for the ASL
